

Envirotech Solo Blackout Blind Fabric

“Intelligent Blind Fabrics, Protecting You and The Environment.”

This fabric is designed for areas where a high level of light exclusion is required along with exceptional performance characteristics.

The unique fabric weave with a white PVC reflective coating on the reverse ensures total light exclusion whilst maintaining a superior fabric weave appearance.

Solo Blackout Fire Retardant

With 3 colours along with one of the most advanced production procedures, this flame retardant fabric is designed with the commercial, educational and healthcare environments in mind.

The unique fabric weave with a white PVC reflective coating on the reverse ensures total light exclusion whilst maintaining a superior fabric weave appearance, which also matches with the Solo fabric range.

	2500 mm	HT %	LT %	SB %	UV %	AB %	HR %
White		0	0	100	100	30	70
Magnolia		0	0	100	100	29	71
Light Grey		0	0	100	100	30	70

HT % : Heat Transmittance
 LT % : Light Transmittance
 SB % : Sunblock
 UV % : Ultraviolet Protection
 AB % : Absorption
 HR % : Heat Reflectance

- Fabric Composition:** 70% PVC, 30% Polyester
- Fabric Range:** 3
- Roller Fabric Width:** 2500mm (98.4")
- Fabric Thickness:** 0.60mm
- Fabric Weight:** 560 g/m2
- Fire Retardancy:** BS5867, Part 2: Type B, 2008
- Shading:** Blackout. Suitable for computer environments
- Moisture Resistance:** Suitable for moist conditions
- Mesh / inches:** 48 x 48
