

Sustainable Roller Blind Fabric Specification Checklist

Use this checklist when preparing an enquiry, quotation request or design-team review for a commercial rooflight blind system.

1. Project information

Project name	
Building / site	
Room or area	
Specifier / contact	
Date	

2. Window and glazing

- ☐ Glazing orientation
- ☐ Approximate glazing size
- ☐ Internal or external shading
- ☐ Existing blinds or shading present
- ☐ High-level or difficult-to-access glazing

3. Shading requirement

- ☐ Sunscreen
- ☐ Dimout
- ☐ Blackout
- ☐ Privacy
- ☐ Glare control
- ☐ Heat gain reduction
- ☐ Other (please specify)

4. Fabric performance

- ☐ Required openness factor
- ☐ Visible light transmittance
- ☐ Solar transmittance
- ☐ Solar reflectance
- ☐ Solar absorption
- ☐ gtot data available, where relevant
- ☐ Other (please specify)

5. Room use

- | | |
|---|--|
| ☐ Office / workspace | ☐ Hospitality |
| ☐ Education | ☐ Residential / BTR |
| ☐ Healthcare | ☐ Other |
| ☐ Public building | <input type="text"/> |

6. Fire and safety

- ☐ Required fire classification
- ☐ Child-safety requirements
- ☐ Healthcare or specialist safety requirements
- ☐ Relevant project standards confirmed

Useful Note

Fabric performance should be reviewed alongside glazing type, façade orientation, room use and control method.

Sustainable Roller Blind Fabric Specification Checklist

Sustainability, evidence and final review.

7. Material composition

- ☐ Fabric composition confirmed
- ☐ Recycled content percentage confirmed
- ☐ Renewable or bio-based content confirmed
- ☐ PVC-free, where required
- ☐ Coatings and backing materials identified
- ☐ Other (please specify)

8. Environmental certifications

- ☐ Cradle to Cradle Certified
- ☐ OEKO-TEX Standard 100
- ☐ GREENGUARD
- ☐ GREENGUARD Gold
- ☐ Other recognised certification
- ☐ Current certificate supplied

9. Regulatory and product evidence

- ☐ UK REACH information available
- ☐ Environmental Product Declaration available
- ☐ Material health or chemical information available
- ☐ Manufacturer technical datasheet supplied
- ☐ Supporting test certificates supplied
- ☐ Other (please specify)

10. Service life and maintenance

- ☐ Expected service life considered
- ☐ Cleaning method confirmed
- ☐ Fabric suitable for expected level of use
- ☐ Replacement frequency considered
- ☐ Maintenance requirements understood
- ☐ Other (please specify)

11. End of life

- ☐ Fabric described as recyclable
- ☐ Recycling route identified
- ☐ Manufacturer take-back scheme available
- ☐ Components can be separated where required
- ☐ End-of-life information supplied
- ☐ Other (please specify)

12. Final review

- ☐ Environmental requirements met
- ☐ Solar and light performance met
- ☐ Fire requirements met
- ☐ Suitable for room use
- ☐ Supporting evidence received
- ☐ Fabric approved for specification
